REVISED MANUAL OF TALUK ACCOUNTS, GENERAL.

REVISED FORMS OF TALUK ACCOUNTS.

Permanent Registers.

Register A ...	... Number, name and description of villages and hamlets.
„ B ...	... Beriz of permanently-settled estates and inam villages and of minor inams included therein.
„ C ...	... Register of lands under irrigation projects conditionally assigned. (*a*).
„ C-I ...	... Register of lands conditionally assigned under Board's Standing Orders Nos. 15-2 (XVI.) (*a*).

Annual and Quinquennial Registers and Posting Statements.

Register No. 1	... Extent of cultivation month by month for each Revenue Inspector's Range.
„ No. 2	... Area cultivated with certain crops and their estimated outturn.
„ No. 3	... Daily record of the retail prices of certain principal articles.
„ No. 4	... Record of applications for land.
„ No. 5	... Record of relinquishments of land.
„ No. 6	... Record of transfers of land.
„ No. 6-I	... Current register of transfer applications received by the Revenue Inspector.
„ No. 6-A	... Villagewar abstract register of the register of transfers.
„ No. 7	... Changes in the Government and inam ayakats other than those recorded in Registers Nos. 4, 5 and 6.
„ No. 7-A	... Villagewar changes in the Government and inam ayakats other than those entered in Registers Nos. 4, 5 and 6.
„ No. 8	... Changes in Government and inam ayakats (occupied and unoccupied) other than those entered in Registers Nos. 4, 5 and 6.
„ No. 9	... Remissions and deductions in each village.
„ No. 10	... Particulars of beriz deductions.
„ No. 11	... Particulars of miscellaneous revenue in Government villages.
„ No. 11-I	... Particulars of miscellaneous revenue in non-Government villages.
„ No. 11-II	... Particulars of revenue other than land revenue, ryotwar, miscellaneous and cesses in non-Government villages.
„ No. 12	... Abstract register of settlement for ryotwar villages.
„ No. 13	... Lands held on progressive cowle.
„ No. 14	... Abstract register of collections from ryotwar villages.
„ No. 14-A	... Demand, collection and balance for ryotwar villages.
„ No. 14-B	... Irrecoverable arrears written off in ryotwar villages.
„ No. 14-C	... Particulars of over-payments.
„ No. 14-D	... Particulars of arrears reported to be irrecoverable.
„ No. 15	... Abstract register of collections from permanently-settled estates and whole inam villages.
„ No. 15-A	... Demand, collection and balance for permanently-settled estates and whole inam villages.
„ No. 16	... Demand, collection and balance for each estate or village month by month.
„ No. 17	... Interest register for ryotwar villages.
„ No. 17-A	... Interest register for permanently-settled estates and whole inam villages.
„ No. 18	... Particulars of sales for arrears of revenue.
„ No. 19	... Unoccupied lands sold under Board's Standing Orders Nos. 15, 16, 20, 21, 22, 45, 90 and 91.
„ No. 20-I	... Assets on which land-cess is charged in permanently-settled estates.
„ No. 20-II	... Assets on which the land-cess is charged in inam villages.
„ No. 21	... Number of agricultural stock.
„ No. 22	... Sources of irrigation other than wells in and out of repair

(*a*) G.O. No. 3767, Rev., dated 22nd December 1913.

Register No. 22-A	...	Irrigation under wells in and out of repair.
„ No. 23-I	...	Number of pattas of various values in the taluk.
„ No. 23-II	...	Particulars of the profession of pattadars.
„ No. 24	...	Total area cultivated with certain chief products.
„ No. 25	...	Particulars of irrigation and irrigated crops.
„ No. 26	...	Redemption of land revenue.

Monthly Returns.

Return No. 1 ...	...	Sections I, II and III—Season reports. Section IV—Statement of retail prices of certain articles.
„ No. 2	...	Statement of demand, collection and balance of land revenue.
„ No. 2-A	...	Fasliwar particulars of the arrears shown in column 15 of statement No. 2.
„ No. 2-B	...	Statement showing steps taken for the realization of the arrears of land revenue and cesses.
„ No. 2-C	...	Statement explaining differences between the demand, collection and balance accounts and the treasury accounts.
„ No. 2-D	...	Sums (arrears and current) recommended to be written off the accounts as irrecoverable.

Jamabandi Returns—Annual.

Return No. 3 ...	...	Statement of ryots' holdings and cultivation in the taluk.
„ No. 3-A	...	Particulars of area given up or transferred and the area taken up.
„ No. 3-B	...	Statement of land held on progressive cowle.
„ No. 4	...	Statement of remissions and deductions.
„ No. 4-A	...	Beriz deductions.
„ No. 5 ...	...	Statement of miscellaneous revenue.
„ No. 6 ...	...	Demand, collection and balance statement of permanently-settled estates and whole inam villages.
„ No. 7 ...	...	Demand, collection and balance statement of ryotwar villages.
„ No. 7-A	...	Demand, collection and balance statement of interest charged on arrears of land revenue.
„ No. 8 ...	...	Fasliwar particulars of the balance shown in the demand, collection and balance statement.
„ No. 8-A	...	Statement showing the details of coercive processes employed in the realization of arrears of revenue.
„ No. 8-B	...	Statement showing particulars of processes issued and the fees collected.
„ No. 9 ...	...	Statement showing lands sold under Board's Standing Orders Nos. 15, 16, 20, 21, etc.
„ No. 10	...	Statement showing disposal of patta transfer applications.
„ No. 11	...	*Nil* (discontinued—*vide* B.P. No. 105 (Land Revenue), dated 22nd April 1899).
„ No. 12	...	Statement of ruined tanks made over to private individuals.
„ No. 13	...	*Nil* (discontinued—*vide* B.P. No. 319, R.S.; dated 4th September 1909)
„ No. 14	...	Statement showing the particulars of the demand on Government lands on which land-cess is charged.
„ No. 15	...	Showing particulars of demand of land-cess on minor inams, inam villages and zamindaris.
„ No. 16	...	Statement showing the alienation of land revenue in ryotwar tracts.

Quinquennial.

Return No. 17	...	Sources of irrigation in and out of repair.
„ No. 18-I	...	Statement showing the number of pattas of various values held in the taluk.
„ No. 18-II	...	Statement showing the profession of pattadars.
„ No. 19	...	Statement showing the inspection of cattle census.

Statistical Returns—Annual.

Return A_1 ...	...	Statement showing total acreage.
„ A_2 ...	...	Classification of area, area irrigated and crops irrigated.
„ A_3 ...	...	*Nil*—Abolished—B.P. No. 214, R.S., dated 17th July 1895.

Return A_4	... ...	Statement of agricultural stock.
" C	... ...	Incidence of land revenue (quinquennial).
" E	... ...	Record of transfers.
" F1	... ...	Return of sundry industries.
" F_2	... ...	Statement of production of minerals in the taluk.
" G	... ...	Statement showing area cultivated with certain crops.
" H	... ...	Statement of wages (abolished—*vide* B.P. No. 165, Sett., dated 19th May 1908, and B.P. No. 332, Sett., dated 11th July 1910).
" J & K	...	*Nil*—abolished.
" L	... ...	Statement of charitable institutions.

N.B.—(1) Number of accounts in the edition of 1887 either cancelled or not brought in this edition:—Nos. 22, 23, 26, 27, 34, 35-II, 38, 39, 40, enclosure to 47, 49, 50 and 51.

(2) The instructions and forms in this manual are prescribed for all districts except Malabar, South Canara and the Nilgiris.

Permanent Register.

Register A.—This is a permanent register showing the names and descriptions of villages and their hamlets whether inhabited or not.[a] All Government villages should be written first, inam villages should come next and zamindari villages last.[b] The register need not be written up annually. Any villages which may be newly formed or transferred from other taluks should be added to the list from year to year, such changes as may take place in the existing villages being noted in the column of remarks, and the necessary additions or deductions being made in the abstract at the end of the register.

a B.P. No. 2534, Mis., Rev. Sett., dated 28th April 1893.
b B.P. No. 225, Rev. Sett., dated 25th July 1895, page 6.

2. *Register B.*—This is a register showing the area and revenue of permanently-settled estates, whole inam villages and the minor inams therein which have been granted or continued by the British Government.[a] For zamindaris and whole inam villages whether cadastrally surveyed or not, the areas computed by the Survey Department should be adopted. For minor inams, the survey areas should be adopted where these have been surveyed: and the areas given in the inam register where they have not been surveyed. The total area of each estate including the minor inams should be given and also a grand total for the taluk. Any changes which may occur should be shown in the column of remarks and the necessary additions or deductions made to the totals of each year, so that the net demand of the year may be known. The statement may be rewritten, say, once in ten years. Where a zamindari is situated partly in one taluk and partly in another, the villages in each taluk should appear in the register of that taluk, with a note that the rest of the zamindari is situated in such and such taluks, but columns 6 to 11 will be filled in only in the accounts of the taluk in which the peshkash is usually paid, or if it is paid in the Collector's treasury, in the accounts of such taluk as the Collector may direct. Where a zamindari is not attached to any particular taluk, the register will be prepared by such officer as the Collector may direct.

a B.P. No. 235, Rev. Sett., dated 25th July 1895, pages 2 and 6.

3. Inam villages in zamindaris for which title-deeds have been issued by the Inam Commissioner should appear separately under the zamindaris in which they are situated. If the quit-rents of such inam villages are directly payable to Government, they will appear in column 6 against each village; but if they have been transferred to the zamindar, the same will appear in column 7 and the amount made payable by the zamindar to Government after deducting the commission allowed to him for the trouble of collection will be entered in column 8 in lump against the zamindari. Column 4 (tenure) need not be filled up in the case of zamindaris. Minor inams in zamindari and inam villages, which have been settled by the Inam Commissioner, and the village service inams registered by him should be entered separately below the villages in which they are situated.

4. In case of changes caused by transfers or relinquishments, the orders sanctioning such changes should be noted in the column for remarks.[a] The demand on account of the proprietors' payments for village service should be entered below the peshkash or quit-rent in column 6 against the estate concerned. The demand on account of revenue from village service inams should be similarly

entered in the same column against the minor inams concerned.[b] These entries in the register must be made to agree with the register maintained in the Collector's office.[c]

a B.P. No. 173, Land Rev., dated 23rd July 1901.
b B.P. No. 1, Land Rev., dated 8th January 1902, page 3.
c B.P. No. 214, Rev. Sett., dated 17th July 1895, page 5.

5. In a separate section of the register should be entered the areas and assessments of the lands once held as village service inam but now enfranchised and assessed as ryotwar. This section should be prepared from the reports of the Special Deputy Collector or other officers employed on the enfranchisement and assessment of such lands.

6. *Village A and B Registers.*—Duplicates of the village A and B registers should be maintained in the Taluk office as prescribed in the Manual of Village Accounts. Changes should be duly entered therein as orders issue from the taluk office, the work being definitely assigned to one particular clerk. The two sets of registers should be carefully compared and checked at jamabandi with those kept by the karnams.

6-A. *Register C.*—This is a register of lands under irrigation projects conditionally assigned under Board's Standing Order No. 15-2 (XV). A register in the same form—Permanent Register C-1—must be maintained in those taluks of the districts of Ganjam and Salem in which assignments are made under Board's Standing Order No. 15-2 (XVI).

G.O. No. 3767, Rev., dated 22nd December 1913.

Annual and Quinquennial Registers.

7. *No.* 1.—This is a register of monthly cultivation for each Revenue Inspector's range under Government and inam, dry and wet, first and second crop. It should be prepared by posting the firka totals from the abstract of the village returns that Revenue Inspectors should send up at the end of each month, and by entering the total for the taluk. The Revenue Inspector's register should be prepared in the same form as this account but with an additional column inserted for the names of the villages between columns 1 and 2 and made up into a book to last for 12 months[a]. If the cultivation statement (Village No. 1) is not received by the Inspector for any village in time, the fact should be noted in his abstract return and a supplemental return sent in later. The karnams must not be called to the Taluk office to supply the figures. The Revenue Inspector's register should be filed in the Taluk office at the end of the year, after the jamabandi is completed.

a B.P. No. 484, Rev. Sett., dated 8th July 1892.

8. *No.* 2 is a register showing the area cultivated with different crops, the outturn of crops harvested, and the extent of the crops standing at the end of the year. It should be prepared for the fasli year from the special statement submitted by village officers through Revenue Inspectors to the Taluk office in the form prescribed in the instructions for the preparation of village account No. 1-A. Crops should be entered in this register in accordance with the classification adopted in column 1 of village account No. 1-A, columns 2 to 9 of the former being repeated for each crop or group of crops indicated in the latter.[a] The total of columns 8 and 9 should be equal to the extent entered in column 2. The register should be opened at the end of June.[b] Separate particulars of the cultivated area under Government and inam and under first and second crop are unnecessary. It is sufficient if the total is entered.

a B.Ps. No. 2485, Mis., Rev. Sett., dated 21st April 1894, para. 7 (5); and No. 803, Rev. Sett., dated 23rd December 1892.
b B.P. No. 423, Rev. Sett., dated 10th October 1894, page 4.
c B.P. No. 225, Rev. Sett., dated 25th July 1895, page 19.
B.Ps. Nos. 415, Rev. Sett., dated 8th November 1898; and 24, Rev. Sett., dated 27th January 1903.

9. *No.* 3 is the daily register of the retail prices of certain principal grains and of salt. It should be prepared in book form containing thirteen pages, one for each month, and the last being retained for the general average of the year. At the end of the month, the daily average should be computed and entered at the foot of the page. The prices should be recorded at such stations and for such

articles [a] as may be ordered from time to time and should be given in those local measures only which have been adopted by the Board as the standards for conversion into imperial seers. When the prices of two varieties have to be recorded, the mean of the two will give a sufficiently accurate average price. The variety of grain to be selected for price-recording purposes is that which is ordinarily consumed by the bulk of the population whether it is new or old grain. In the case of paddy, the prices of the chief superior and the chief inferior varieties should be recorded as the price of the first and second sort paddy. The mean of the two will give a sufficiently accurate average price.[b] Explanations for all variations from the previous day's figures exceeding one imperial seer under *rice* and two seers under *dry* food-grains should be recorded in the register day by day as prices are noted, enquiries being made then and there.[c] Any changes in the standards that may be discovered should immediately be reported to higher authority, so that the necessary corrections may be made in the Board's conversion tables. As a correct record of prices is most important, the work of preparing the returns should be entrusted to a competent officer, that is, the Taluk Sarishtadar or the Taluk Head Accountant in Tahsildars' offices and the Head Gumastah in Deputy Tahsildar's office, who should be held strictly responsible for checking their accuracy by personal inquiries from day to day. The salt dealt with in the register should be that chiefly in use amongst the bulk of the population.

[a] B.P. No. 349, Rev. Sett, dated 31st October 1899.
[b] B.Ps. Nos. 490, Rev. Sett., dated 10th July 1897; and 50, Rev. Sett., dated 10th February 1903.
[c] B.P. No. 225, Rev. Sett., dated 25th July 1895.

10. *No.* 4 is a current register of darkhasts. In this should be entered all applications for land whether accepted or not, as also all cases of unauthorised occupation for which A Form reports are received. The applications and reports should be entered as received serially for the whole taluk and a total made out at the end of the year, showing under dry, garden and wet separately particulars of darkhasts accepted and of those rejected. In columns 7 to 10 the correct description of land, extent and assessment should be entered after receipt of the report from the village officers with sub-division sketches (where the land is newly subdivided). Where the application covers only a part of a registered survey number or registered sub-division, the acceptance of the darkhast will only be conditional pending the final check of the new sub-division map by the Inspector. The register should be placed before the settling officer at the annual settlement and he should see whether all applications and reports have been duly and promptly disposed of and have been brought to account and should then affix his signature. Orders, if any, passed at jamabandi or subsequent thereto must all be entered in the taluk register as well as in the village register.

To facilitate reference a list of all the villages in the taluk in the serial order should be prefixed to this register and, as soon as each darkhast is entered in the register, its serial number should be entered in this list against the name of the village to which it relates.

At the end of the register a total should be entered showing separately the particulars of the area granted and refused, respectively, under wet and dry.

11. *No.* 5 is a current register of relinquishments and should be prepared in the same manner as the register of darkhasts (No. 4). At the end of the register a total should be entered showing separately particulars of the area given up under Government and inam, dry and wet, and the area for which relinquishments have been accepted. An index list of villages should also be prefixed to this register.

12. *No.* 6 is a current register showing particulars of transfers of registration due to succession, partition, sale, gift, processes of court and the like. The cause of the change in each case should be particularised in column 10 of the register. Applications received through Sub-Registrars should be entered separately from those received directly by Revenue officers. The Revenue Inspectors should keep a register in Form No. 6-I and should enter in it all cases of transfer disposed of by them. At the end of the year this register should be sent to the Taluk office where the figures from it will be posted in the enclosure A to No. 6. At the end of the register an abstract similar to that prescribed for register No. 5 should be entered. An index list should also be prefixed as in registers Nos. 4 and 5.

13. *Enclosure A to No.* 6 is an abstract by villages of the above and will be divided into three sections, one for ryotwar, one for minor inams and the third for inam villages, as shown in the sample form. Transfers of permanently-settled estates will be registered in the Collector's office and should be excluded from No. 6 and its enclosure.

14. *No.* 7 is a register showing all permanent changes in the Government and inam ayakats other than those entered in registers Nos. 4, 5 and 6. Entries should be made as changes are sanctioned. An index list of villages should be prefixed.

15. *Enclosure A to No.* 7 is a statement by villages showing the changes in the Government and inam ayakats during the year other than those entered in registers Nos. 4, 5 and 6 and should be posted from enclosure E to village account No. 2. In the case of poramboke or unassessed lands transferred to ayan, the assessment to be entered will be the one fixed on such lands when assigned for cultivation, while in the case of assessed lands transferred to poramboke or unassessed, the taram assessment charged on them before their conversion should be entered. In the case of inam lands, the entries relate to taram assessment and not the quit-rent payable on them. When dry lands are transferred to wet and *vice versa,* the assessment which the lands bore before and after their conversion should be entered.

16. *No.* 8 is a statement showing the changes in the Government and inam ayakats (occupied and unoccupied) together with changes that occurred during the year other than those entered in registers Nos. 4, 5 and 6 and should be compiled from the previous year's statement and from the totals in register No. 7-A. The inam lands referred to in the form are the minor inams in ryotwar villages. If similar information is available for inam villages also, a separate account in the same form should be prepared from them.

17. *No.* 9 shows the details of remissions and deductions in each village. [a] Besides the remissions which are entered in village account No. 5, the statement should also be made to show the deductions of all kinds made during the year from the village beriz, which should be posted from village account No. 4. [b] As many new columns as may be required may be opened to show the remissions granted under the various standing orders.

a G.O. No. 1899, Rev., dated 26th June 1913.
b G.O. No. 3764 Rev., dated 22nd December 1913.

18. *No.* 10 is a statement showing beriz deductions of all kinds whether made in ryotwar or shrotriem villages. It will be in two sections, one showing deductions in favour of religious institutions and the other deductions made for other purposes.[a] Columns 1–5 of the statement should be filled in from the orders sanctioning the beriz deductions. Column 6 shows the amount due on account of the previous year and left undrawn. The amount actually paid during the year (column 9) should tally with the entry in column 18 of statement No. 9.

a G.O. No. 1899, Rev., dated 26th June 1913.

19. *No.* 11 is a statement showing particulars of miscellaneous revenue in each village whether Government or proprietary [a] and will be prepared from village statements Nos. 6, 7 and enclosure I to No. 11. Below the grand total, the revenue realized in the taluk by fines, [b] sale of unclaimed property, etc., should be particularised and added up. Forest revenue collected by Revenue officials, such as value of trees on darkhast lands,[c] sale-proceeds of lime-stone,[d] bungalow quit-rents[e] should all be shown in this account.

a B.P. No. 9, Land Rev., dated 17th January 1902.
b B.P. No. 419, Land Rev , dated 12th November 1896.
c B.P. No. 268, Forest, dated 5th July 1897.
d B P. No. 423, Rev. Sett., dated 10th October 1894.
e B.P. No. 225, Rev. Sett , dated 25th July 1895.
G.O. No. 1681, Rev., dated 6th June 1912.

20. *Enclosure I to No.* 11 is a statement showing all miscellaneous revenue accruing in non-Government villages. This should be posted from accounts to be opened in these villages on the model of Village Manual Accounts 5, 6 and 7 pending the special accounts to be prescribed for them.[a]

a B.P. No. 279, Rev. Sett., dated 31st October 1901.

21. *Enclosure II to No.* 11 is a statement showing the revenue, not falling under the head Land Revenue, ryotwar and miscellaneous and cesses arising in non-Government villages. In other words it shows the zamindari peshkash, shrotriem quit-rent, together with the land-cess thereon, the cesses due on minor inams, the collection of which is entrusted to the proprietor, and the revenue on account of proprietary estates village service.[a] At the foot of the account, the total of enclosure I should be added and a grand total struck.[b]

[a] B.P. No. 1, Land Rev., dated 8th January 1902.
[b] B.P. No. 279, Rev. Sett., dated 31st October 1901.

22. *No.* 12 is a statement showing the settlement of each ryotwar village and should be prepared from village account No. 12 and taluk account Nos. 9, 11 and 20.[a] The account should be completed before the close of jamabandi and signed by the jamabandi officer.[b] It should include ryotwar lands situated within the limits of inam villages or zamindaris[c] and exclude shrotriem jodi and cess thereon.[d] In short it should show all items falling under the item "Land Revenue, ryotwar, miscellaneous and cess" in the demand, collection and balance statement accruing both in ryotwar and proprietary villages, examples of which are assessment on fully assessed village service inams,[d] miscellaneous revenue in proprietary estates and cesses thereon,[e] enhanced rate charged for unauthorized use of Government water,[f] water-rate and fasaljasti on lands in proprietary villages.[g] Forest revenue collected by the revenue officials[h] and cutcherry collections[i] should also be shown in this account.

[a] B.P. No. 3645, Mis., Land Rev., dated 11th November 1899, in B.P. No. 261, Land Rev., dated 8th December 1900.
[b] B.P. No. 224, Rev. Sett., dated 12th June 1893.
[c] B.P. No. 406, Rev. Sett., dated 1st October 1894.
[d] B.P. No. 225, Rev. Sett., dated 25th July 1895.
[e] B.Ps. No. 279, Rev. Sett., dated 31st October 1901; and No. 156, Rev. Sett., dated 29th July 1901.
[f] B.P. No. 280, Rev. Sett., dated 14th September 1899.
[g] B.P. No. 4037 M., Rev. Sett., dated 9th August 1900.
[h] B.P. No. 268 F., dated 5th July 1897.
[i] B.P. No. 419, dated 12th November 1896.

23. *No.* 13 (permanent) is a register of lands held on progressive cowle. The details of the fields, the dates and terms on which they were granted, and other particulars should be posted with reference to the order sanctioning the cowle. Cowles[a] granted for plantations of topes should not be entered in this account.

[a] B.P. No. 223, Land Rev., dated 18th June 1891.

24. *No.* 14 shows the collections and the irrecoverable arrears written off in each ryotwar village. A page should be allotted for each village for exhibiting the transactions for all the months of the year. The arrear demand under land revenue and cesses should be shown against the respective faslis from previous year's statement; but the current demand should not be entered until it is finally determined after the jamabandi. The collections will be posted month by month from the entries in the taluk cash chitta and the irrecoverable arrears with reference to the orders issued from the taluk and a total given for each month showing the amount collected up to the month and the amount written off. At the end of the year the balance should be struck after deducting overpayments and carried forward to the next fasli. The entries in columns 9 to 12 will include arrears as well as current. Quit-rent on village service inams should be included in land revenue. If there were any items of "special funds" other than village cess and the quit-rent on village service inams they should be exhibited in a separate column.

25. *Enclosure A to No.* 14 is an abstract for the whole taluk and should be prepared at the end of the year. The demand should be entered from No. 12 and the previous year's statement, while the collections should be posted from No. 14 against each village and then totalled. The overpayments and the irrecoverable arrears written off should be filled in from enclosures C and D which should be posted from taluk No. 14, and enclosure C to village account No. 14. The demand and collection (columns 4 and 5) in the former statement should refer to those villages only from which overpayments have been made. The difference will then represent the gross amount of the overpayments which should be deducted to obtain a correct balance at the end of the year.

26. *Enclosure B to No.* 14 shows particulars of the balance of arrears and of current demand ascertained to be irrecoverable in each village and should be posted from enclosure B to village account No. 14. A separate line should be allotted against each village for each fasli and for each ground of remission. The entries should be made after the close of each quarter and not all at once after the close of the fasli. At the end of the statement an abstract should be entered showing the total amount recommended to be written off for the whole taluk under land revenue and cesses and against the several faslis and grounds of remission.

27. *Enclosure C to No.* 14 should be in three sections, the first showing overpayments under pattas which are to be adjusted towards the demand under the same pattas for the following fasli, the second showing overpayments which cannot be so adjusted and must be refunded in cash, but excluding under the latter, sums of one anna or less which should be entered in the third section. The amount shown in the third section will neither be refunded nor carried forward to the accounts of the succeeding fasli. The enclosure should include all overpayments that have not been up to 30th June adjusted or refunded or eliminated from the accounts under proper authority. The items should be entered in the accounts chronologically according to the fasli year of their accrual, the amounts for each fasli year being separately totalled.

28. *No.* 15 shows the demand, collection and balance of permanently-settled estates and whole inam villages and corresponds to No. 14 and will be similarly prepared. The entries should be made from time to time as collections are made and not altogether after the close of the fasli. All collections relating to proprietary estates should be exhibited in this account. The interest on the miscellaneous revenue appertaining to proprietary estates should be calculated in the same way as the interest on ryotwar revenue and posted in taluk account No. 17-A. Enclosures may be added to this account if necessary to work out overpayments and irrecoverable arrears.

29. *Enclosure to No.* 15 is an abstract for the whole taluk and corresponds to enclosure A to No. 14.

30. *No.* 16 shows the demand, collection and balance for each month and for each estate or village. For permanently-settled estates and whole inam villages the kist will be entered with reference to register B and the collections with reference to the payments made in the taluk or elsewhere. For ryotwar villages the particulars should be posted from village account No. 16. The columns showing "kist" and "amount collected or written off" should exhibit the transactions up to the month, *i.e.*, up to the date on which the remittance closed and not the last day of the month. The account for each year's arrears should be written on separate sheets and so far only as regards those estates against which arrears exist. So also should a separate page be allotted for each item of demand.

B.P. No. 33, Land Rev., dated 3rd February 1905.

31. *No.* 17 shows the amount of interest charged on arrears of revenue in ryotwar villages and on arrears of miscellaneous revenue for each month and will be posted from the village account No. 17.[a] The account should be written up in separate sections as indicated in the form. A total should be made for each month. Interest due on land revenue and cesses in ryotwar villages should be credited to land revenue. The entries under miscellaneous revenue in proprietary estates should be made after first working out the liabilities of the individuals concerned in the form of village account No. 17.

[a] G.O. No. 3764, Rev., dated 22nd December 1913.

32. *No.* 17-*A* shows the particulars of interest charged on arrears of revenue due from permanently-settled estates and whole inam villages. One or more pages will be allotted for each month and the estates and inam villages will be entered in separate sections. Columns 6, 11, 13 and 18 will be posted from No.16. Interest will be charged according to the terms of the sanads or any orders on the subject. Interest on the miscellaneous revenue appertaining to proprietary estates should not be included in this account but should be exhibited in No. 17 as the interest on such revenue is calculated in the same way as the interest on

ryotwar revenue. [a] An enclosure to this account, in the same form as the main account, should be maintained to show the demand of interest charged on arrears of revenue on account of proprietary estates village service.

[a] G.O. No. 3764, Rev., dated 22nd December 1913.

33. *No.* 18 is a register of land and other property sold for arrears of revenue. The sales should be entered in the order in which they take place, the date of confirmation being entered in the last column. Where, however, a sale is cancelled a line in red ink should be drawn across the entry. The estimated value to be entered in column 12 of the statement should be fixed with reference to the selling prices of lands of similar quality in the neighbourhood. In the rare cases in which it is not possible to ascertain the value of lands as indicated above the estimated value may be taken at five times the assessment. Sales of real property under Act II of 1864 for arrears of revenue other than land revenue and cesses may be exhibited in a separate section. The remarks column should show the particular item or head of account to which such other arrears belong and the disposal number ordering the sale.

34. *No.* 19 is the register of all Government lands sold under Board's Standing Orders Nos. 15, 16, 20, 21, 22, 45, 90, 91 and 197. The price of buildings and wells on darkhast lands should be included in this account.

B.P. No. 74, Land Rev., dated 21st April 1904.

35. *No.* 20 shows the land cess charged on the rent value of permanently-settled estates and whole inam villages exclusive of miscellaneous revenue and minor inams. This should be written up in two sections, one relating to "permanently-settled estates," and the other to "inam villages." In the case of permanently-settled estates one-half of the cess is remitted on the amount of the rental equal to the annual peshkash payable to Government (*vide* section 75 of Act V of 1884). This deduction will be shown in column 6.

36. *No.* 31 (quinquennial) is a register of agricultural stock and will be compiled from village account No. 21 in the census years commencing with fasli 1324.

B.Ps. Nos. 106, Rev. Sett., dated 14th April 1899; 179, Rev. Sett., dated 5th September 1902; 246, Rev. Sett., dated 18th June 1894; and 56, Rev. Sett., dated 12th February 1900.

37. *Statements Nos.* 22 *and* 22-A (quinquennial) are registers of irrigation works, Government and private, both in and out of repair and will be compiled from village Nos. 2 and 2-D. No. 22-A should deal with wells not situated in the ayakats of other irrigation sources [a] and No. 22 with other works: but wells supplementing irrigation should be entered in the "Remarks", column of No. 22. Columns 2 to 5 of No. 22 and 2 to 14 of No. 22-A should be posted every year for the purpose of statistical return A^2. Columns 6 to 11 of No. 22 and columns 15 to 20 of No. 22-A should be posted in faslis 1315, 1320, etc., for the purpose of the jamabandi statement No. 17. In posting the annual figures for the statistical return the total area under each class of work, viz., anikats, river channels, tanks, wells and spring channels should be entered; but once in five years, *i.e.*, in the years for which the jamabandi (irrigation) statement is to be prepared the figures should be posted for each description of work according to the classification prescribed in jamabandi return No. 17. When preparing A^2 (statistical) return from this statement the total of the areas irrigated from anikats and river channels should be given as the area irrigated by canals. The area under spring channels should be shown as the area irrigated under other sources.

[a] B.Ps. Nos. 449, Rev. Sett., dated 1st October 1900; and 255, Rev. Sett., dated 12th August 1899.

38. *No.* 23 (quinquennial) is a classified register by villages of the pattas in the taluk. It should be written up in two sections, one classified with reference to the amount of assessment paid by the ryots and the other with reference to their profession. This statement should be compiled from village account No. 23.

B.P. No. 140, Land Rev., dated 26th June 1901.

39. *No.* 24 is a register showing the details of crops cultivated and will be compiled from enclosure B to village account No. 2. The sub-heads relating to each crop are left blank with a view to enable Taluk officers to enter only such

of the crops as are cultivated in the taluk. In entering the crops, the classification adopted in column 1 of the statistical return G should be followed. To avoid mistakes in classification each crop should be separately shown and the vernacular name of each invariably given in the heading together with the English name. Information regarding ryotwar lands, minor inams and whole inam villages should be shown separately. The areas shown in the register include first and second crop and irrigated and unirrigated lands. In the case of the marginally-noted crops which are grown only in a few districts no separate heading need be opened in the register; the area occupied by them may be included under the appropriate heading for "others" of the classes to which the crops severally belong and a supplement attached to the register in the following form [a]:—

Panivaragu, or variga, barley, cardamoms, pepper, ginger, linseed, date palms (for sugar), jute, nona, opium, coffee, tea, cinchona, Indian hemp, omum and senna.

Crop.	Area.								Column in which included.
	Government.		Minor inam.		Whole inam.		Total.		
1	2		3		4		5		6
	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	

[a] B.P. No. 274, Rev. Sett, dated 7th April 1892.

40. *No.* 25 shows particulars of irrigation and of irrigated crops and will be compiled from enclosure D to village account No. 2 and will show all lands irrigated from a Government or private source of irrigation whether classed as wet or dry, whether paying water-rate or not but not monsoon lands (*i.e.*, lands dependent on falling rain). The area irrigated from "anikats" and "river channels" should be shown against "canals" and that from "spring channels" against "other sources." Against the item "wells" should be shown the area irrigated by wells having separate ayakats as well as the area that is wholly irrigated by wells situated in the ayakat of other irrigation works and not charged for under the main sources; but the area irrigated by supplemental wells jointly with the main source of the irrigation should be excluded from the item.

41. *No.* 26 is a register showing the redemption of revenue that may be allowed in the case of lands held on permanent title under the old freehold rules or sold under the old waste land rules with the right to redeem the assessment at the option of the purchaser or in the case of inams enfranchised under the old rules with the right to redeem the quit-rent.

B.P. No. 74, Land Rev., dated 21st April 1904.

Returns—Monthly.

42. *Return No.* 1 is the season report. It is divided into four sections: the first showing the daily rainfall at each station at which a rain gauge is kept; the second giving a comparative abstract of cultivation under Government and inam, dry and wet and first and second crop; the third the area and outturn under different crops; and the fourth showing the retail prices of certain commodities. Section I should be sent to the Meteorologist direct in the form prescribed. Section II-A will be prepared from register No. 1 and the corresponding return for the previous year, and will be submitted to the Collector's office within five days after the close of the month. All important variations as compared with the average should invariably be explained at the foot of the return. Under the head "River freshes" it should be stated whether there were freshes in rivers, and, if so, whether they were "slight," "moderate" or "heavy" and under "supplies received in tanks" whether the supply in tanks is sufficient or insufficient for present requirements. In times of distress, the above return should be supplemented by one in form II-B furnishing particulars for each firka, which should be entered in geographical order.[a b c] If the statement of cultivation (No. 1) is not received from any village or villages in time, the fact should be noted in section II-A and a supplemental return of the cultivation in such villages should be forwarded as soon as received. Section III should be prepared from the

totals in taluk register No. 2. It should be prepared for the fasli year. A brief note should accompany it showing the effect of the season, etc., on the area cropped and on the outturn as compared with the previous year. Section IV should be prepared from taluk register No. 3 and should give the monthly averages for the prescribed articles at every station at which prices are recorded.

[a] B.Ps. Nos. 243., Rev. Sett., dated 9th August 1899; and 251, Rev. Sett., dated 17th August 1899.
[b] B.P. No. 467, Rev. Sett., dated 25th June 1892.
[c] B.P. No. 392, Rev. Sett., dated 4th November 1903.

43. *Return No.* 2 is a monthly statement of demand, collection and balance for the whole taluk and is intended to show the progress made in the realization of demand for the settlement and *collection of which Revenue Officers are responsible.* This statement should be closed to the same date as that on which the Taluk Treasury accounts are closed and submitted to the Huzur office on the 1st of every month. It will be prepared from No. 16 and the previous month's statement. The demand under ryotwar and cesses in ryotwar villages will be shown separately, while the collections will be lumped together. All items appearing in village account No 16 should be included in this statement. The miscellaneous items such as process fees, interest, forests, etc., which are included in the Treasury accounts but excluded from the demand, collection and balance statement should be shown in this return in the form of a footnote. No item other than those given in column 1 should be added without the permission of the Board. In the returns from Cuddapah and Kurnool, canal water-rate should be shown as item 8. Any difference between the figures given in column 2 and those returned in the previous month of the same fasli should be explained. Differences between the figures in columns 3, 7 and 10 and the corresponding figures in columns 5, 9 and 12 of the return for the previous month should be explained. The figures for item 4 will be shown separately in columns 2 to 6 and clubbed with item 3 in the remaining columns. Item 3 " Land Revenue, ryotwar and miscellaneous " includes (1) all revenues appertaining to minor inams not made over to the proprietor in proprietary villages and all charges for water due by the proprietors or their tenants, (2) cutcherry collections (the amount being noted in the column of remarks for the purpose of cess distribution), (3) quit-rent on enfranchised village service inams and the assessment on resumed, escheated and relinquished inams, etc. (Item 7 should include penalties and fines and other miscellaneous receipts on account of the village service in proprietary estates as shown in the Treasury accounts.) The amount actually written off, columns 14 and 15, and the subsequent collections will be compiled from information received from the villages.

44. Enclosure A furnishes particulars by faslis of the amounts written off and of the arrear balance under (1) permanently-settled revenue, (2) shrotriem jodi and (3) ryotwar revenue and cesses. Against item 5 totals should be entered and their details should be shown against the sub-heads A to D. The authorities for items 1, 6 and 7 should be quoted at the foot of the statement. Item 6 should tally with item 4 so far as arrears are concerned. Variations from figures previously reported should be explained in footnotes.

45. In enclosure B the explanation for the non-realization of the recoverable balance should be given. All sums which have been already recommended to be written off should be omitted from this enclosure The totals under current and arrears should respectively tally with those given in the last item of enclosure A and in column 17 of the demand, collection and balance statement. The authority for item 5 should be quoted. Particulars of other items should be noted in full. Brief explanation should be given in cases where the amounts shown against items 2 to 8 have been outstanding for long periods.

46. Enclosure C is a statement explaining the differences between the demand, collection and balance statement and the treasury figures.

47. Enclosure D is a return showing the sums (arrears and current) recommended to be written off the accounts as irrecoverable or otherwise and should be prepared from enclosure D to No. 14 account. Every demand shown under " other items " shall be fully described so that sanction may be accorded to its being written

off without its being necessary to call for further information. In the case of item 3 also, the circumstances under which the inclusion of the amount in the demand is considered erroneous should be clearly explained. The return which should give particulars by faslis should be prepared at the end of each quarter and submitted to the Collector by the 5th of the following month.

B.P. No. 33, Land Rev., dated 3rd February 1905.

Jamabandi Returns—Annual.

48. *Return No.* 3 is a statement of ryots' holdings and cultivation in the taluk. It will be prepared from taluk register No. 12 and from enclosure A to this statement. The assessment shown in column 6 includes water-rate in tracts where water-rate is not consolidated with land assessment. Columns 27 to 58 should be prepared from columns 1 to 32 of village register No. 12. The total land revenue and cesses should agree with the revised demand, collection and balance statement for the fasli year.

49. *Enclosure A to No.* 3 shows particulars of the area given up or transferred and the area taken up during the year.

Item 1 in I—*deductions*—and item 1 in II—*additions*—should be filled in from the abstract in taluk registers 5 and 4 respectively. Items 2 to 5 in both should be posted from enclosure A to taluk register No. 6 and the remaining items from enclosure A to No. 7.

50. *Enclosure B* is the abstract statement of land held on progressive cowle. It should be prepared from taluk register No. 13.

51. *Return No.* 4 shows the remissions and deductions under the several heads of the whole taluk as compared with the preceding year with explanations for large variations. It should be prepared from No. 9 and the previous year's statement.

52. *Enclosure A to No.* 4 shows the total deductions of all kinds payable from the village beriz and the amount actually deducted during the fasli. This should be prepared in two sections, one showing deductions in favour of religious institutions and the other deductions made for other purposes[a]—with reference to the entries made in taluk register No. 10 and the files relating to the cases sanctioned during the year.

[a] G.O. No. 1899, Rev., dated 26th June 1913.

53. *Return No.* 5 is a comparative statement of miscellaneous revenue and should be prepared from taluk register No. 11 and the corresponding statement for the previous year. Variations in the several items from the figures of the preceding year should be clearly explained in the column of remarks.

54. *Return No.* 6 is the statement of demand, collection and balance of permanently-settled estates and whole inam villages. It should be prepared from taluk register No. 15 and its enclosure.

55. *Return No.* 7 is the statement showing the demand, collection and balance of land revenue and cesses. It is to be prepared from the revised demand, collection and balance statement for the month of June.

56. *Enclosure A* to No. 7 is the statement showing the demand, collection and balance of interest on arrears of land revenue. It should be prepared from taluk register No. 17.

57. *Return No* 8 is a statement showing the fasliwar particulars of the balance shown in the revised demand, collection and balance statement. It is enclosure A to return No. 2 for June as revised after the closing of the village and taluk accounts.

58. *Return No.* 8-*A* shows details of cœrcive processes employed in the realization of the arrears of revenue. It should be compiled from the process registers prescribed in paragraph 6 of Board's Standing Order No. 46 and from taluk register No. 18. All sales held during the fasli should be included in this statement. Columns 2 to 4 should exclude the processes not actually served owing to the payment of arrears between their issue from the Taluk office and their

execution. Demands issued to other taluks should also be excluded from column 2, as they will find place in the return of the taluk in which they were actually executed. All the joint holders of a patta should be reckoned as a single defaulter. The amount in column 22 should be the total of the entries in columns 27, 30 and 33 and that in column 35 should be the total of these in columns 18, 22 and 34.

59. Enclosure B to No. 8 shows the particulars of processes issued and the fees collected under Act II of 1864. The total of columns 2 and 3 of this statement should agree with the total of columns 2, 3 and 4 of enclosure A *minus* the number of demand notices which were used for distraining personal property. When the cost of the special batta peons exceeds the receipts an explanation should be rendered.

60. *Return No.* 9 shows the lands sold on behalf of Government under Board's Standing Orders Nos. 15, 16, 20, 21, 22, 45, 90, 91 and 197 and should be compiled from taluk register No. 19.

61. *Return No.* 10.—This is a statement showing the disposal of applications for transfer of pattas received during the year. Cases of undisputed succession should be excluded from this statement. It should be prepared from taluk register No. 6.

62. *Return No.* 11.—This return is to be prepared in the Collector's office and not by Tahsildars (B.P. No. 105, L.R., dated 22nd April 1899).

63. *Return No.* 12 is the statement of ruined or abandoned tanks made over to private individuals during the year. It should be kept in a book form and the particulars of each tank entered therein at the time of its transfer from the records relating to each case. At the end of the year, an extract of so much of the statement as relates to the year should be submitted in the same form to the Collector's office.

64. *Return No.* 13—abolished by the return prescribed in Board's Proceedings No. 319, dated 4th September 1909. The subject-matter of this return is dealt with in the annual report on Survey, Settlement and Land Records.

65. *Return No.* 14 is the statement showing particulars of the demand on Government lands on which the land cess is charged. In column 2 against item (i) should be entered the total assessment shown in column 7 of the taluk register No. 12 *minus* baling and increment remissions as per return No. 4; against item 2 should be entered the ordinary charge for water shown in column 28 of taluk register No. 12. To arrive at the amount to be shown against item 3 the amount shown in column 34 of village account No. 12 should be posted and the taluk total thus arrived at should be entered. Item 3 should also include other items of miscellaneous revenue shown in taluk register No. 11 on which land cess is charged.

66. *Return No.* 15 shows particulars of demand of land cess on minor inams, inam villages and zamindaris in the taluk. It should be prepared from taluk register No. 20.

67. *Return No.* 16 is a statement showing alienations of land revenue in ryotwar tracts. It should be prepared at the jamabandi from village account No. 5 and taluk registers Nos. 7-A, 8 and 9 and from the register maintained in the taluk office under Board's Standing Order No. 24, paragraph 12. The statistics when once compiled will have to be merely revised from year to year with reference to subsequent resumptions and to additional assignments and to the revision of settlement rates whenever any such revision takes place. The entries under "D other items" should be described in detail. The items to be excluded from this statement are enumerated in the appendix to Board's Standing Order No. 24.

Jamabandi Returns—Quinquennial.

68. *Return No.* 17 is the statement showing the sources of irrigation in and out of repair and the extent of ayakat under them. It should be posted from the totals in taluk registers Nos. 22 and 22-A. It should be prepared quinquennially for faslis 1325, 1330, etc., and submitted to the Collector with the other jamabandi returns.

69. *Return No.* 18-*I* is the statement showing the number of pattas of various values in the taluk. It should be prepared from taluk register No. 23-I. It should be prepared quinquennially for faslis 1325, 1330, etc.

70. *Return No.* 18-*II* is the statement showing the profession of pattadars and minor inamdars. It should also be prepared quinquennially from taluk register No. 23-II for faslis 1325, 1330, etc.

71. *Return No.* 19 is the statement showing the inspection of cattle census which is taken once in five years. It should be prepared from taluk register No. 21 for faslis 1324, 1329, etc.

Statistical Returns—Annual and Quinquennial.

72. *Return A-1—Total acreage.*—The area against side heading (1) should be based on the latest information given by the Director of Survey. Minor inams in zamindaris and in whole inam villages should be shown under those heads. Whole inams situated in zamindaris should be included under whole inams and not under zamindaris. If there are unsurveyed areas in a district, particulars of such areas for columns 2 to 5 should be ascertained in communication with the Director of Survey and entered in their respective columns. If these particulars are not ascertainable, a note to that effect should be made in the remarks column and the total unsurveyed area should be shown in a separate line in column 6 against side heading (1) so that the total of the figures in column 6 may agree with that reported by the Director of Survey. The names of the zamindari estates of which the areas are shown against side heading (3) (*a*) should be entered in the remarks column. The latest date for the submission of the taluk return to the Collector is the 1st of August and of the district return to the Board is the 15th of August.

73. *Return A-2—Classification of area shown in A-*1.—(i) *Forests* (side heading 1) comprise land classed or administered as forests under any legal enactment dealing with forests and should include reserved forests and reserved lands. The figures under actuals should be posted from taluk register No. 8, column 7. The total area should tally with that reported by the District Forest-officer. Differences, should, if any, be explained.

(ii) *Not available for cultivation* (side heading 2) should, for actuals, be the difference between column 7 of taluk register No. 8, under poramboke, and item 6 of jamabandi return No. 5, column 4 for Government villages. For proprietary villages, it should be posted from the similar statement maintained for these villages in form 8, where particulars are available.

(iii) *Culturable waste other than fallow* (side heading 3) should, in Government villages, under actuals, be the total of Government assessed land (column 7 of No. 8) *plus* the total area of unassessed land (column 7 of No. 8) *minus* the total holdings (column 31 of jamabandi return No. 3), *minus* miscellaneous occupation (item 5 of jamabandi return No. 5, column 4). For proprietary villages, the figures should be posted, as for Government villages, from a similar account kept for propreitary villages where particulars are available.

(iv) *Current fallows* (side heading 4) should under *actuals* comprise waste remitted and waste charged (columns 37 and 50 of jamabandi return No. 3).

(v) *Net area cropped* (side heading 5) should be the total of actual cultivation under holdings (column 49 of jamabandi return No. 3) *plus* miscellaneous occupation (items 5 and 6 of jamabandi return No. 5, column 4).

The total of side headings 1 to 5, under actuals, should ordinarily agree with the area shown against side heading 3-a of statistical return A-1; differences, if any, which will be those existing between the added total of field areas according to village papers and the area according to traverse survey, should be explained in detail. The total of side headings 1 to 5 under "estimates" should be identical with the area shown against side heading 3-b in statistical return A-1.

(vi) *Area irrigated* (side heading 6).—The figures should be abstracted from the taluk register No. 25.

(vii) *Crops irrigated* (side heading 7).—The particulars required for this head should be abstracted from taluk register No. 25.

74. *Return A*-3—superseded by return G.

75. *Return A-4—Agricultural stock—(Quinquennial)*.—The return should include statistics, whether actuals or estimates, for urban areas not included in any revenue village. For Government villages, "actuals" the figures should be posted from Taluk Register No. 21. This return is to be sent once in every five years. It is due in 1915, 1920, etc. (for faslis 1324, 1329, etc.). In the year in which this return is due, the latest date for the submission of the taluk return to the Collector is the 1st of August and of the district return to the Board is the 15th of August.

76. *Return B*—abolished.

77. *Return C—Incidence of land revenue—(Quinquennial)*.—The area in column 2 should be the difference between the side headings 1 and 2 of return A-1. Minor inams and other lands held on favourable tenure and paying revenue direct to Government should be included under one or other of the 3 items in column 1 according as they are situated within the limits of ryotwar, whole inam or zamindari villages. Whole inam villages situated in zamindari tracts should be included under whole inams and not under zamindaris.

In column 3 (*a*) against *ryotwar* (side heading 1) should be entered (1) the minor inams in Government villages held rent free or subject to quit-rent (column 7 of No. 8); (2) the area of forests (column 7 of No. 8); (3) the area of all unassessed and poramboke lands (column 7 of No. 8), *plus* the area of assessed lands not included in patta (column 7 of No. 8 *minus* column 31 of No. 3), excluding portions appearing under miscellaneous occupation in column 4 of jamabandi returns No. 5, against items 5 and 6; and (4) similar areas in amani, rented or hill villages. Against whole inam (side heading 2) the entire area of *whole inam* villages should be deducted. Against *zamindaris* [side heading 3 (*a*) and 3 (*b*)] should be entered the area of all unoccupied lands, whether fit or unfit for cultivation and the area of minor inams situated within the zamindari; in the case of side heading 3 (*a*) these particulars will be posted from the entries against side headings 1 to 3 of Returns A-2 as also from the entries relating to minor inams alone against side headings 4 and 5 of Return A-2, received from the estates concerned; in the case of side heading 3 (*b*) the requisite information should be obtained from taluk register B or from the detailed statements usually prepared for the calculation of land-cess, or failing these sources, by reference to the zamindars concerned.

In column 3 (*b*) should be entered the difference, if any, between column 2 and the total of columns 3 (*a*) and 4 (*d*) The figures in column 4 (*a*) should represent the total occupied area. This area should be (1) against side heading 1—the total holdings shown in column 6 of taluk register No. 12 *plus* the area under miscellaneous occupation shown against items 5 and 6 of jamabandi return No. 5; (2) against side heading 3 (*a*) the total of entries relating to "jeroyati" which appear against side headings 4 and 5 of Return A-2 for the zamindari estates concerned; (3) against side heading 3 (*b*) the difference between columns 2 and 3 (*a*) as there will be rarely any further deductions to be made in column 3 (*b*) against zamindaris. In column 4 (*b*) the total area cropped once should be entered. This area should be (1) against side heading 1, the figure in column 2 against side heading 5 of Statistical Return A-2, (2) against side heading 3 (*a*) the figure relating to "jeroyati" which appears against side heading 5 of Return A-2 for the zamindari estates concerned; (3) against side heading 3 (*b*) an estimate of the area under cultivation out of the total occupied area entered in column 4 (*a*) and this estimate should be less than that reported in column 9 against the side heading 5 of Return A-2 by the area (estimated) under cultivation in the minor inams situated in the zamindari estates concerned. Columns 3 (*b*), 4 (*a*) and 4 (*b*) will be blank against side heading 2.

The figure to be entered in column 5 should be the total of the revenue derived from all the heads classed under "Land Revenue" in the Civil Account Code, Volume II, Appendix P. Against side heading 1 (ryotwar) should be entered the total revenue shown in column 33 of taluk register No. 12, *plus* total miscellaneous revenue shown in jamabandi return No. 5 except item 1 (*b*) jodi and quit-rent

on minor inams in whole inam and zamindari villages and item 3 charge for water in zamindari and inam villages including tirwajasti and fasaljasti. In the case of zamindaris and whole inam villages, the revenue to be entered in column 5 will be the peshkash or quit-rent payable to Government (column 6 of enclosure to taluk register No. 15) together with water-rate on lands included in such tracts (column 13 of taluk register No. 11 corresponding to item 3 of jamabandi return No. 5); and jodi and quit-rent on minor inams situated therein (taluk register No. 11 corresponding to item 1 (*b*) of the jamabandi return No. 5). Rents realized by the proprietors should not be included in this column.

The figure for column 6 should be taken from the latest census tables.

The entries in column 7 will be column 5 divided by column 6.

In column 8 should be entered only ordinary land revenue as defined in the Civil Account Code on areas fully assessed. For example quit-rent on minor inams should not be shown in this column. Against the side head *ryotwar* should be entered the total revenue shown in column 56 of jamabandi return No. 3 (column 33 of taluk register No. 12), *plus* the revenue derived from miscellaneous occupation (items 4 to 6 of jamabandi return No. 5), and such items of *ordinary* land revenue as may be included in "other items" in jamabandi return No. 5.

In the case of whole inam villages, this column will be blank. Against "zamindaris" should be entered the peshkash or quit-rent shown in column 6 of enclosure to taluk register No. 15 *plus* water-rate payable to Government on "jeroyati" lands including tirwajasti and fasaljasti (column 13 of taluk register No. 11).

Column 9 will be column 8 divided by column 4 (*a*).

Column 10 will be column 8 divided by column 4 (*b*). No entry will be made in this column against zamindaris.

In the case of whole inam villages column 8 to 12 will be blank.

In column 11 the entire population of the ryotwar and zamindari villages (column 6) will be repeated, as the population of the area not fully assessed cannot be separately ascertained.

Column 12 will be column 8 divided by column 11.

Columns 13 and 14 should be filled in with reference to the latest census tables.

The average incidence of land revenue for the whole district shown in the district return should not be calculated by striking the average of the incidences in the several taluks, but should be worked out by dividing the total revenue of all the taluks by their total population or assessed (occupied) or cultivated areas as the case may be.

This return is to be prepared once in every five years. It is due in 1914, 1919, etc., for faslis 1323, 1328, etc. In the year in which this return is due, the latest date for the submission of the taluk return to the Collector is the 1st of August and of the district return to the Board is 1st October.

78. *Return D—Varieties of tenure.*—Abolished in Board's Proceedings, No. 141, R.S., 23rd July 1902.

79. *Return E—Transfers.*—In this return side heading No. 1 should be filled up in the Collector's office, side headings 2 and 3 should be posted from the enclosure A to taluk register No. 6. The following items, however, should be excluded :—

(1) Purchase by Government at sales for arrears of revenue,
(2) Transfers by inheritance and partition, and
(3) Transfers due to leases and simple mortgages.

All variations of over 10 per cent. between the figures of the previous and the current year should be explained in the memorandum form prescribed in Board's Proceedings No. 612, dated 30th August 1892.

The latest date for the submission of the taluk return to the Collector is 1st August and the district return to the Board is 15th August.

B.Ps. No. 246, R.S., dated 18th June 1894 and No. 290, R.S., dated 23rd October 1896.

80. *Return F-1.*—This is the form in which the return of sundry industries is to be prepared. It should be confined to private concerns not coming under

the operation of the Factories Act, but employing an average daily number of 50 or more persons and should be prepared in two sections, the first section dealing with concerns worked by mechanical power and the second with concerns not worked by mechanical power.[a] In column 1 should be shown the name of the postal town within the limits of which each concern is situated.[b] In the remarks column explanation should be given for the omission or inclusion of industries for the *first* time, as well as for any large variations in the number of persons employed in the year, in comparison with the number for the previous year. For preparing this return information should be obtained by application to the owners or managers of the various concerns.

[a] B.Ps. No. 17, R.S., dated 29th January 1902; No. 146, R.S., dated 7th May 1906; and No. 143, R.S., dated 17th April 1909.
[b] B.P. No. 309, R.S., dated 10th September 1907.

81. *Return F-2.*—This is the return of mineral production. It should deal only with minerals not dealt with under the Indian Mines Act and should be prepared from the extracts from Village Account No. 24 sent by village officers supplemented by enquiries made direct of the owners or managers of the various concerns.

82. *Return G—Crops.*—Each crop must be separately shown and the local vernacular name must invariably be given as well as the common and botanical names of the crop which are given in the form. The return should be compiled from taluk register No. 24. In the case of the marginally-noted crops which are only grown in a few districts no separate heading need be opened in the general return, but in the districts where they are grown, the area occupied by them may be included under the appropriate heading for "others" of the classes to which the crops severally belong and a supplement attached to the return in the form given in the margin. Illupai (an oil-seed) should be included in "others" under oil-seeds, cholam and sunn hemp grown exclusively for fodder should not be included in items 2 and 39, but in 46. Palmyras and dates should be exhibited under sugar only if they are reserved therefor. The annual cultivation account for the taluk should be compared with this account and differences explained. Net area cropped in this statement should tally with that item in A-2. All variations of over 10 *per cent.* as compared with normal crop areas should be explained. This return is due in the Collector's office not later than 1st August each fasli year.

83. *Return H.*—*Wages* superseded by the system of periodical censuses—*vide* B.P. No. 165, Sett., dated 19th May 1908, and B.P. No. 332, Sett., dated 11th July 1910.

84. *Return J—Civil divisions of British territory.*—Abolished in B.P. No. 334, Land Rev., dated 20th September 1895.

85. *Return K.*—Abolished.

86. *Return L—Charitable institutions.*—The institutions should be classified under the heads specified in column 1. The information for this return should be obtained by reference to the Taluk or District Boards in the case of all institutions under their charge and by private enquiries in the case of other institutions. The average number of persons daily aided (columns 3) should be calculated by adding up the number aided daily, *i.e.*, the number of attendances and dividing the total by the number of days during which the aid may have been afforded. Column 4 should represent the total number of persons to whom relief was given without reference to the fact that the same person may have obtained relief more than once. Institutions which furnish food or cooked rice, or accommodation, or both, should be classed as in-door, and those at which raw rice alone is distributed as out-door. Under "General" should be shown institutions which afford relief of both descriptions, in-door and out-door chatrams not supported by local taxation should appear in class II and not in class IV.

Page 82.—*Delete* "Section II Local Funds other than cesses—*Nil*" in register No. 17 and *renumber* Sections III and IV as II and III.

B.P. No. 83, L.R., 9th Mar. 1915.

Page 15.—*Omit* the second sentence of paragraph 61.

B.P. No. 94, L.R., 17th Mar. 1915.

Page 121.—*Insert* "transferred by succession" as item 6 both under "I—Deductions" and "II—Additions" and *renumber* the succeeding items as items 7, etc.

B.P. No. 94, L.R., 17th Mar. 1915.

Page 140.—*Delete* the note at the bottom of the page.

B.P. No. 94, L.R., 17th Mar. 1915.

THIRD LIST OF CORRECTIONS (FEBRUARY 1916) TO THE REVISED MANUAL OF TALUK ACCOUNTS (GENERAL) ISSUED WITH BOARD'S PROCEEDINGS No. 31, R.S., DATED 2ND FEBRUARY, 1914.

After paragraph 16, *add* the following as paragraph 16-A :—

16-A. No. 8-A is an abstract of all entries in Nos. 4, 5, 6 and 7 which involve new subdivisions. It should be written up serially for the whole taluk ; and from it should be prepared the lists of new subdivisions to be sent to the Inspector under paragraph 11 (*b*) under Board's Standing Order No. 34-A and to the Registration department under Board's Proceedings No. 158, dated 2nd May 1904. Whenever any case is entered in account Nos. 4, 5, 6 or 7 which involves a new subdivision, columns 1 to 4 of account No. 8-A should be filled up at the same time. Columns 6 and 7 should be filled up at the same time as entries are made in columns 14 and 15 of account No. 4 and in the corresponding columns of accounts Nos. 5, 6 and 7. An index list of villages should be prefixed to this register. The register should be written up afresh for each year, all cases pending at the end of the previous year being brought forward to the register opened for the next year.

B.P. No. 218, R.S., 29th July 1915.

In the form of Register No. 7 at page 48 of the Manual, *substitute* the following for columns 13 and 14 :—

	Date of communication of order to the village officers with subdivision sketches where new subdivision is made.	When the land is newly subdivided		Number and date of the final disposal of the case.	
		Date of receipt of report from Inspector with sketches finally passed.	Date of incorporation in the taluk copy of the A Register and of the field atlas.		
	(13)	(14)	(15)	(16)	

B.P. No. 218, R.S., 29th July 1915.

After the form of Register No. 8 *insert* the following as Register No. 8-A :—

Register No. 8-A.—Abstract register of new subdivisions in the taluk, district, for fasli .

Serial number.	Number and name of village.	Survey number and subdivision number from which the new subdivision is to be formed.	Taluk current register number and reference to Taluk registers Nos. 4, 5, 6 and 7.	Date of inclusion in the list sent to the Inspector under paragraph 11 (*b*) of Board's Standing Order No. 34-A.	Details of the new subdivisions as finally sanctioned.		Date of inclusion in the list sent to the Registration Department under Board's Proceedings No. 158, dated 2nd June 1904.
					Subdivision number.	Extent.	

B.P. No. 218, R.S., 29th July 1915.

Page 11.—*For* the instructions in paragraph 37 of the Manual, *substitute* the following :—

" Number 22 is a register showing the total number of wells, tanks, channels and oil-engines in actual use. It is posted quinquennially in faslis 1325, 1330, etc., from village accounts Nos. 2 and 2-D and is used for the preparation of the statistical return M. River channels, spring channels and anicut channels should be shown under the head " Channels of all sorts." Dasabandam works should be classed as Government or private according as they are maintained partly by Government and partly by the raiyats or wholly by the raiyats. River channels should not be classed as private merely because the raiyats carry out the customary repairs."

B.P. No. 222, R.S., 9th August 1915.

Page 15.—*Delete* paragraph 68.

B.P. No. 222, R.S., 9th August 1915.

Page 20.—*Insert* the following paragraph after paragraph 86 :—

" 87. Return M is the statement showing the total number of tanks, channels, wells and other works actually in use. It should be posted from the totals in taluk register No. 22. It should be prepared quinquennially for faslis 1325, 1330, etc. In the year in which this return is due, the latest date for the submission of the taluk return to the Collector is the 1st of August and of the district return to the Board is the 15th of August."

B.P. No. 222, R.S., 9th August 1915.

Page 90.—*For* the form of register No. 22, *substitute* the following :—

Register No. 22.—Total number of wells, tanks, channels and other works actually used for irrigation in the taluk, district, during fasli .

Village.	Number of oil-engines in working order.	Tanks with ayacuts.								Channels of all sorts.		Wells with independent ayacuts.		Supplemental wells.		Remarks.
		Under 10 acres.		Not exceeding 200 acres.		Exceeding 200 acres		Total.								
		Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)

B.P. No. 222, R.S., 9th August 1915.

Page 91.—*Delete* the form of enclosure A to No. 22.

B.P. No. 222, R.S., 9th August 1915.

Page 145.—*Delete* the form of jamabandi return No. 17.

B.P. No. 222, R.S., 9th August 1915.

Page 160.—After page 160, *insert* the following *for* the form of statistical return M :—

Statistical return M (*Quinquennial*).—Total number of wells, tanks, channels, and other works actually used for irrigation in the taluk/district during fasli .

Taluk.	Number of oil-engines in working order.	Tanks with ayacuts.						Total.		Channels of all sorts.		Wells of all sorts.		Remarks.
		Under 10 acres.		Not exceeding 200 acres.		Exceeding 200 acres.								
		Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	Government.	Private.	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)

Note.—(1) All wells including wells supplementing irrigation should be entered in columns 13 and 14.

(2) The number of new works constructed during the quinquennial period and their estimated value should be noted in the column of "Remarks."

(3) All variations compared with the previously reported figures should be explained in a memorandum accompanying the statement.

(4) The return from the Collector to the Board should be in the same form, taluk details and district total being entered.

B.P. No. 222, R.S., 9th August 1915.

Paragraph 39.—(1) *Delete* the second sentence beginning with the words "sub-heads."

(2) *For* the fifth sentence beginning with the word "Information," *substitute* "Information regarding raiyatwar lands including minor inams in Government villages, whole inams and zamindaris should be furnished separately."

(3) *Delete* the last sentence beginning with the words "In the case of," and the tabular statement below it.

B.P. No. 330, R.S., 10th December 1915.

Paragraph 82.—(1) *Delete* the tabular statement and also the third, fourth and the fifth sentences beginning with the words "In," "Iluppai," and "Palmyras," respectively, and *substitute* the following :—

"The crops to be included under the head "others" in each group will be found in the list prepared by the Director of Statistics. Item 28 (fodder crops) should include crops that in normal times are used only as fodder."

B.P. No. 330, R.S., 10th December 1915.

Form of Taluk Register No. 24.—(1) *Alter* the heading of column 2 into "whether raiyatwar, whole inam or zamindari."

(2) *Delete* the entry, "minor inam," in column and *alter* the heading "Government" in that column into "raiyatwar including minor inams in Government villages."

(3) *For* the classification of crops, given in columns 3 to 58, *substitute* the classification given in column 1 of G return.

(4) *Delete* the footnotes at pages 102 and 103 of the Manual.

(5) *Delete* the form printed as supplement to Register No. 24.

B.P. No. 330, R.S., 10th December 1915.

Form of statistical return A_1.—(1) *Delete* column 3 and *renumber* columns 4 to 7.

(2) *Alter* the heading of column 2 into "raiyatwar, including minor inam in Government villages."

B.P. No. 330, R.S., dated 10th December 1915.

Form of statistical return A_2.—(1) *Delete* columns 4 and 5 and *renumber* columns 6 to 13.

(2) *Alter* the heading, "Government" into "Raiyatwar, including minor inams in Government villages."

B.P. No. 330, R.S., dated 10th December 1915.

Statistical return G.—*For* the form of statistical return G, *substitute* the following:—

Statistical return G.—Total area under crops in the taluk, district during the fasli year ending June 19 .
